There are no understandings, agreements, conditions, representations, warranties or promises, with respect to this Contract, except those contained in or referred to in the writing.

Kimley-Horn and Associates, Inc. (Kimley-Horn) shall complete the following Scope of Work to develop a Local Roadway Safety Plan (LRSP).

Task 0 – Project Management

Task 0.1 – Project Management

This task includes general project administration, including management of project staff, quality control, and project accounting. This Scope of Work is anticipated to be completed over an eight-month period.

Task 0.2 – Project Kick-Off Meeting

Kimley-Horn will coordinate a project kick-off meeting with City staff to discuss the goals of the project and role of the Kimley-Horn team and all stakeholders. Administrative items will be discussed, including communication protocol, meeting frequency, progress reporting, scheduling and invoicing, and other relevant project information such as key milestones for the project and what defines success for this project. A summary of the meeting with key action items will be developed and distributed by Kimley-Horn.

Task 0.3 – On-Going Coordination

Kimley-Horn will conduct on-going coordination calls with the City to discuss project progress and key milestones. Seven coordination calls are anticipated under this task.

Task 0 Deliverables:

- Project kick-off meeting agenda and meeting notes
- Eight monthly progress reports and invoices
- Seven coordination calls

Task 1 – Review Documentation and Develop Plan Goals

Kimley-Horn will conduct a limited literature review of the City's General Plan, Capital Improvement Program (CIP), and other reasonably applicable planning documents to identify programs, policies, and programmed projects within the City that might have safety impacts or impact mitigation options identified. Additionally, Kimley-Horn will identify a reasonable number of opportunity areas to facilitate safety improvements in the various Safety Es. This effort includes identification of programs and policies within the City that are anticipated to be supportive of safety, which ones could be updated to better align with current best practices, and where there are opportunities for new initiatives that would likely support safer roads and better driving behaviors.

Kimley-Horn will work with City staff and the project team to formulate the goals and objectives of the LRSP, with a focus on promoting safe, equitable, and multimodal mobility opportunities. We will also identify an ongoing process for identifying and analyzing high collision locations.

Task 1 Deliverables:

- Summary of plan goals
- Process for identifying and analyzing high collision locations

Task 2 – Establish Stakeholders

Kimley-Horn will work with City staff to identify members of a working group that will participate in project decision-making and provide input into priority areas. Working group members are anticipated to cover a variety of interests and knowledge areas to help in the development of a balanced and representative plan that addresses roadway safety from each of the four “Es”. Stakeholder meetings are specifically excluded from this Scope of Services.

Task 2 Deliverable:

List of stakeholders

Task 3 – Analyze Available Crash Data and Statistics

Task 3.1 – Data Collection

Kimley-Horn will acquire crash data from the past five years from the City’s Crossroads database, or other appropriate sources. Available roadway data (i.e., street names, road classification, lanes, traffic control) and traffic counts (i.e., ADT, intersection turning movement counts, bike and pedestrian counts) will be obtained (if available in GIS format).

Task 3.2 – Collision Exhibits

Kimley-Horn will create exhibits demonstrating key findings with respect to primary collision factors: time of day, age or responsible party, high incident locations, and bike/ped involvement. Up to six exhibits will be prepared under this task.

Task 3 Deliverables:

Geodatabase with collisions, roadway data, traffic counts

Up to six collision exhibits

Task 4 – Determine Focus Areas

Kimley-Horn will analyze the collision data to identify specific focus/challenge areas to guide crash reduction countermeasure strategies. The focus/challenge areas will be compared to the California SHSP, prepared by Kimley-Horn.

Task 4 Deliverable:

List of focus/challenge areas

Task 5 – Identify Crash Reduction Strategies

Based on the challenge areas identified under Task 4, Kimley-Horn will identify countermeasures starting with those in the Caltrans Local Roadway Safety Manual that have proven ability to address safety issues occurring on Rocklin roadways. Kimley-Horn will consider the use of temporary measures and technological implementations, such as crash avoidance technology and connected vehicles. These countermeasures will focus on the four “Es” with a particular focus on enforcement and education measures that build a culture of

safety and awareness in roadway users. Measures that support safe and efficient active transportation use will also be strongly considered.

Kimley-Horn will meet with City staff to discuss planned and programmed projects for consideration when the recommended projects and countermeasures are developed.

Vehicle Speed and Noise Countermeasures

As a continuation of Task 5, Kimley-Horn will work with City staff to develop a list of acceptable speed and noise reduction countermeasures that could be used by the City for residential streets.

Task 5 Deliverables:

- Citywide countermeasure list (Draft and Final)
- List of capital projects to be accounted for in the LRSP

Task 6 – Develop Public Outreach Plan

The Public Outreach Plan will document key stakeholders (identified in Task 2), outline the messaging of the study as well as identify concepts for a social media campaign (that will be developed and implemented by the City). Kimley-Horn will support the City and Public Information Officer (PIO) for the LRSP website which will include background project information, schedule, project documentation and deliverables.

Task 6 Deliverables:

- Documentation of key stakeholders
- Concepts for social media campaign
- Provide materials for City website

Task 7 – Prioritize Countermeasures/Projects

Kimley-Horn will identify up to five priority countermeasures or high incident locations with the most potential for advancement as HSIP fundable projects. The priority countermeasures or high incident locations will be provided to the City for review and comment. Kimley-Horn, in coordination with the City, will choose the five countermeasures or high incident locations for further review. A site visit will be completed at up to five locations. A project sheet will be developed for each priority countermeasure or selected site containing the information needed to complete an HSIP application. Project sheets may include countermeasure details, location(s), crash data (frequency, severity, crash type, and other conditions), traffic data, potential countermeasures, and other intersections or facilities in the City with similar risk factors.

Kimley-Horn will conduct a benefit/cost analysis for project alternatives to determine which projects provide the most return on investment. The potential effectiveness of each countermeasure will also be evaluated, tailored to each of the selected locations. Adjustments to each countermeasure will be applied in order to maximize the safety benefits at each location. These project sheets will note opportunities for funding and implementation through existing City maintenance and grant funding programs.

Kimley-Horn will conduct site visits at up to five priority, high crash locations. We have a deep understanding and familiarity with the major intersections within the City which experience high crash rates and may be identified

as one of the priority locations. The site visits would provide an additional, unique opportunity to assess field conditions and observe driver behavior and conflicts along with City staff, representatives from the police department, and other select stakeholders. The intent of these field visits is to develop customized safety measures to the conditions of each roadway segment/intersection, as opposed to developing a general list of potential countermeasures. The site visits will occur on a weekday with observation of traffic patterns and roadway characteristics that could highlight potential reasons for the observed crash patterns.

A master list of countermeasures will also be developed to help prioritize implementation, assuming that some project elements will be complementary and that applying them to multiple locations with similar risk factors at once could lead to cost savings.

Task 7 Deliverable:

Project sheets (up to five)

Task 8 – Prepare and Present a Draft LRSP

The results of prior tasks will be incorporated into an Administrative Draft LRSP for review by the City. The Administrative Draft will include the objectives and goals of the LRSP, an outline of the process for developing the LRSP, including analysis findings, recommended safety measures and their prioritization, potential funding sources, evaluation criteria, and planned future updates. The LRSP will also include goals and objectives. Maps, charts, and photos will be included in the Administrative Draft, where applicable.

City staff from the Project Team, other City departments, and working group members will review and comment on the Administrative Draft Plan. Kimley-Horn will address one set of consolidated written comments on the Administrative Draft and submit a Draft LRSP.

Task 8 Deliverables:

Administrative Draft LRSP (PDF format)

Draft LRSP (PDF format)

One presentation to the City Council

Task 9 – Prepare and Finalize a Final LRSP

Kimley-Horn will revise and update the LRSP based upon the comments on the Administrative Draft LRSP to compile a Final LRSP. Kimley-Horn will submit this final deliverable in electronic (.PDF) and up to five hardcopies of the Final LRSP.

Task 9 Deliverable:

Final LRSP (5 hardcopies and PDF format)

EXHIBIT E

LABOR COMPLIANCE

1. PREVAILING WAGE

A. The Work contemplated herein constitutes a public work within the meaning of Labor Code sections 1720 and 1771. It shall be mandatory upon the Contractor and upon any Subcontractor, to pay not less than the said specified prevailing rates of wages to all workers employed by them under the Contract in accordance with Labor Code section 1774. The Director of the Department of Industrial Relations ("DIR") of the State of California has determined the general prevailing rate of wages of per diem wages in the locality in which the work is to be performed for each craft or type of worker needed to execute the Contract. The Contractor acknowledges that it has examined the prevailing rate of per diem wages as established by the DIR. Copies of the current schedules for prevailing wages are on file at City Hall, and the contents of those schedules are incorporated herein as if set forth in full. The Contractor shall post a copy of the applicable prevailing wage determinations at each job site, along with any other work place posters required by law.

B. The City will not recognize any claims for additional compensation because of the payment of prevailing wages. The possibility of wage increases is one of the elements to be considered by the Contractor in determining its proposal, and will not under any circumstances be considered as the basis of a claim against the City.

C. By executing this Contract Contractor warrants that it has registered with the Department of Industrial Relations in accordance with Labor Code section 1725.5.

2. PREVAILING WAGE RECORDS

A. The Contractor and each subcontractor shall keep an accurate payroll record which shows the name, address, social security number, correct work classification (in accordance with the wage decision), both straight and overtime worked each day and week, and hourly rate of pay, gross wages earned, deductions made and net wages paid to each journeyman, apprentice, worker or other employee paid by the Contractor /subcontractor in connection with the Work. These payroll records shall be certified and shall be made available at Contractor's principal office. These records shall be maintained during the course of the Work. The Contractor and all subcontractors shall make the certified payroll records available for inspection by City representatives upon request and shall permit such representatives to interview employees during the work hours on the job site.

B. The City shall notify the Contractor in writing of any discrepancies or violations that are discovered during such inspections. Written notification pursuant to this Section shall include the actions that will be necessary to resolve the discrepancies and/or violations. The Contractor shall be held entirely responsible for the prompt resolution of all non-compliances with the prevailing wage laws, including those pertaining to all subcontractors and any lower-tier subcontractors. The Contractor shall

forfeit as penalty to the City the amount specified by law for each calendar day or portion thereof for each worker (whether employed by the Contractor or any subcontractor) paid less than the stipulated prevailing rates for any work done under the Contract in violation of the provisions of the Labor Code and in particular, Section 1775.

C. To the extent applicable, Contractor and subcontractors shall maintain and furnish to the Department of Industrial Relations ("DIR"), a certified copy of each weekly payroll (but no less often than monthly), with a statement of compliance signed under penalty of perjury. Such certified payroll reports shall be transmitted electronically to the DIR.

D. The City will not recognize any claims for additional compensation because of the payment of the prevailing wages. The possibility of wage increases is one of the elements to be considered by the Contractor in entering into the Contract, and will not under any circumstances, other than delays caused by the City, or the City's agents, be considered as the basis of a claim against the City.

3. Labor Discrimination

Attention is directed to Section 1735 of the Labor Code, which reads as follows:

"No discrimination shall be made in the employment of persons upon public works because of their race, color, national origin or ancestry, physical handicap, mental condition, marital status, or sex of such person, except as provided in Section 12940 of the Government Code, and every General Contractor for public works violating this section is subject to all the penalties imposed for a violation of this chapter."

(b) The Contractor and each Subcontractor shall also keep an accurate record showing the names and actual hours worked of all workers employed by them in connection with the Contract. This record shall be open at all reasonable hours to the inspection of the City. It is hereby further agreed that, except as provided in (a) above, the Contractor shall forfeit as a penalty to the City the sum of twenty-five dollars (\$25) for each worker employed in the performance of the Contract by the Contractor or by any of its Subcontractors for each calendar day during which such worker is required or
