

## ENERGY SERVICES AGREEMENT – SOLAR

### Rocklin City Hall

This Energy Services Agreement (“Agreement”) is made and entered into as of this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_ (or, if later, the latest date of a Party’s execution and delivery to the other Party of this Agreement, the “Effective Date”), between FFP BTM SOLAR, LLC, a Delaware limited liability company (“Provider”), and the City of Rocklin (“Purchaser”; and, together with Provider, each, a “Party” and together, the “Parties”).

### RECITALS

- A. Purchaser desires that Provider install and operate a solar photovoltaic system at the Premises (as hereafter defined) for the purpose of providing Energy Services (as hereafter defined), and Provider is willing to have the Installation Work performed by using one or more qualified contractors holding the appropriate licenses required in the jurisdiction where the System will be installed;
- B. Provider is in the business of designing, constructing, owning, financing, and operating solar photovoltaic systems for the purpose of selling power generated by the systems to its purchasers;
- C. California Government Code sections 4217.10 et seq. authorizes a public entity to enter into energy service contracts, facility financing contracts, and related agreements to implement the State’s conservation and alternative energy supply source policy;
- D. Purchaser’s governing body has made those findings required by Government Code section 4217.12 that the anticipated cost to the Purchaser for Energy Services provided by the System under this Agreement is expected to be less than the anticipated marginal cost to the Purchaser of electrical energy that would have been consumed by Purchaser in the absence of its purchase of the Energy Services;
- E. Provider and Purchaser acknowledged those certain General Terms and Conditions of Energy Services Agreement between FFP BTM Solar, LLC and Purchaser dated as of \_\_\_\_\_, 20\_\_\_\_ (“General Terms and Conditions”), which are incorporated by reference as set forth herein; and
- F. The terms and conditions of this Energy Services Agreement, excluding the General Terms and Conditions incorporated herein, constitute the “Special Conditions” referred to in the General Terms and Conditions.

In consideration of the mutual promises set forth below, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

- 1. Incorporation of General Terms and Conditions. The General Terms and Conditions are incorporated herein as if set forth in their entirety.
- 2. Initial Term. The initial term of this Agreement shall commence on the Effective Date and shall continue for Twenty (20) years from the Commercial Operation Date (as defined in the General Terms and Conditions), unless and until extended or terminated earlier pursuant to the provisions of this Agreement (the “Initial Term”). After the Initial Term, this Agreement may be renewed for an additional five (5) year term (a “Renewal Term”). At least one hundred and eighty (180) days, but no more than three hundred and sixty-five (365) days, prior to the expiration of the Initial Term, Provider shall give written notice to Purchaser of the availability of the Renewal Term. Purchaser shall have sixty (60) days to agree to continuation of this Agreement for the Renewal Term. Absent agreement to the Renewal Term this Agreement shall expire on the Expiration Date. The Initial Term and the subsequent Renewal Term, if any, are referred to collectively as the “Term”.

3. Schedules. The following Schedules hereto are hereby incorporated into this Agreement:

Schedule 1	Description of the Premises, System and Subsidy
Schedule 2	Energy Services Payment
Schedule 3	Early Termination Fee
Schedule 4	Estimated Annual Production
Schedule 5	Notice Information
Schedule 6	Reserved
Schedule 7	Specific Items for Scope of Work
Schedule 8	Site Diagram
Schedule 9	Acknowledgment of Upgrades, Schedule or Scope Change
Schedule 10	Electric Vehicle Charging Stations

4. Privacy. Purchaser acknowledges that the System may collect certain information about Purchaser’s electricity usage and the System performance. Such information may be stored and processed in the United States or any other country in which Provider or its third-party service providers, or its or their respective affiliates, subsidiaries, or service providers, maintain facilities. Purchaser consents to any such transfer of information outside of Purchaser’s country.

5. Milestone Dates.

5.1 The Guaranteed Construction Start Date is 300 days from Effective Date.

5.2 The Guaranteed Commercial Operation Date is 180 days from Guaranteed Construction Start Date.

6. Purchase Requirement; Energy Services Payment. “Energy Services” means the supply of electrical energy output from the System and any associated reductions in Purchaser’s peak demand from its Local Electric Utility. Purchaser agrees to purchase one hundred percent (100%) of the Energy Services generated by the System and made available by Provider to Purchaser during each relevant month of the Term, up to a maximum of one hundred and ten percent (110%) of Estimated Annual Production, as defined in Schedule 4. While the Energy Services are calculated and billed on a per kWh basis as set forth in Schedule 2 of these Special Conditions, they represent a package of services and benefits.

7. Net Energy Metering.

- 7.1 The Parties acknowledge that the pricing assumes Net Energy Metering (NEM) 2.0 for the Initial Term. If (i) Provider fails to submit interconnection applications by January 15, 2022, or (ii) prior to the Commercial Operation Date, Provider fails to keep such interconnection applications in good standing such that the System would not be eligible for NEM 2.0, Purchaser may terminate this Agreement with no liability whatsoever, including, but not limited to the Early Termination Fee. The foregoing shall not apply to the extent Provider’s failure is caused by an act or omission by Purchaser in connection with Provider’s submittal of interconnection applications.

*Provided, however,* that in the event of a change in Applicable Law that occurs after the Commercial Operation Date and results in a loss of NEM 2.0 grandfathering, Purchaser shall have no such termination right. Provided further that Purchaser shall ensure any correspondence with the Local Electric Utility regarding the tariff and changes to the interconnection agreement are promptly shared with Provider.

8. Estimated Annual Production. The annual estimate of electricity generated by the system for each year of the initial term is set as forth in Schedule 4 of the Special Conditions (“Estimated Annual Production”). Within sixty (60) days of each annual anniversary of the Commercial Operation Date, Provider will provide a statement to Purchaser that shows the actual annual kWh production from the System for the Term Year, the Estimated Annual Production, and the Minimum Guaranteed Output (defined below).

9. Minimum Guaranteed Output. If the System fails to generate at least ninety-five percent (95%) of the Estimated Annual Production for a full Term Year (such amount, the “Minimum Guaranteed Output”), other than as a result of the acts or omissions of Purchaser or the Local Electric Utility (including a Disruption Period), or an Event of Force Majeure, Provider shall credit Purchaser an amount equal to Purchaser’s Lost Savings on the next invoice or invoices during the following Term Year. The formula for calculating Lost Savings for the applicable Term Year is as follows:

$$\text{Lost Savings} = (\text{MGO} * \text{WPR} - \text{AE}) \times \text{RV}$$

MGO = Minimum Guaranteed Output, as measured in total kWh, for the System for the applicable Term Year.

WPR = Weather Performance Ratio, measured as the ratio of the actual insolation over typical (pro-forma) insolation. Such Weather Performance Ratio shall only apply if the ratio is less than 1.00.

AE = Actual Electricity, as measured in total kWh, delivered by the System for the Term Year plus the estimated lost energy production during a Disruption Period.

$$\text{RV} = (\text{ATP} - \text{kWh Rate})$$

ATP = Average tariff price, measured in \$/kWh, for the Term Year paid by Purchaser with respect to the Premises. This price is determined by dividing the total cost for delivered electricity, including all charges associated with such electricity howsoever named, including, without limitation, charges for distribution, transmission, demand, and systems benefits, paid to the Local Electric Utility during the applicable Term Year by the total amount of delivered electricity by the electric utility during such Term Year.

kWh Rate = the kWh Rate in effect for the applicable Term Year(s), measured in \$/kWh.

If the RV is zero or less, then no Lost Savings payment is due to Purchaser. Any Lost Savings payment shall occur no later than sixty (60) days after the end of the Term Year during which such Lost Savings occurred.

10. Allowed Disruption Time. Notwithstanding the provisions in Section 4.3 of the General Terms and Conditions to the contrary, during years 4 through 20 (but not years 1 through 3) of the Term, Purchaser shall be afforded a one-time allocation of fifteen (15) days which may be used consecutively or in separate periods of at least twenty-four (24) hours each (“Allowed Disruption Time”) during which the System shall be rendered non-operational. Purchaser shall not be obligated to make payments to Provider for electricity not received during the Allowed Disruption Time, nor shall Purchaser be required to reimburse Provider for any other lost revenue during the Allowed Disruption Time, including any lost revenue associated with any reduced sales of Environmental Attributes, and Provider shall be credited for the estimated lost production the System would have produced during such Allowed Disruption Time toward satisfaction of its Minimum Guaranteed Output, as set forth in Section 8 of the Special Conditions, such estimated lost production to be calculated in the same manner as set forth in Section 4.3 of the General Conditions.

11. Distribution Upgrades, Scope and Schedule Changes.

11.1 For any distribution upgrades required or changes to the scope of Installation Work made pursuant to Schedule 2 of the Special Conditions, the Parties may execute an acknowledgment in the form attached hereto as Schedule 8 detailing (i) the description of the distribution upgrades or change in scope of the Installation Work (ii) the amount of the adjustment in the kWh Rate and Early Termination Fee that corresponds to such costs, if any (iii) changes to the Estimated Annual Production in Schedule IV, if any, and (iv) any change to the Guaranteed Construction Start Date and Guaranteed Commercial Operation Date resulting from such upgrades or scope changes;

- 11.2 For any day for day extensions made pursuant to Section 2.2(b) of the General Conditions, the Parties may execute an acknowledgment in the form attached hereto as Schedule 8 detailing (i) the circumstances that warrant such day for day extension and (ii) the updated Guaranteed Construction Start Date and/or Guaranteed Commercial Operation Date;
- 11.3 For any extensions that are not made pursuant to Section 2.2(b) of the General Conditions, Provider may request extensions to the Guaranteed Construction Start Date and/or Guaranteed Commercial Operation Date to the extent that Provider can demonstrate to Purchaser that Provider is seeking such extension for good cause. Purchaser in its sole discretion may approve such extension(s) by executing an acknowledgment in the form attached hereto as Schedule 8 on which Provider details (i) the circumstances for which Provider deems good cause for such extension(s), (ii) the actions that Provider is taking to complete the System on a schedule agreeable to the Purchaser and (iii) the updated Guaranteed Construction Start Date and/or Guaranteed Commercial Operation Date.

For the avoidance of doubt, Purchaser designates the City Manager or Director of Public Services as authorized to execute the acknowledgment form attached hereto as Schedule 8 provided the terms of such acknowledgment comply with this Section 11.

- 12. Sunlight Access. Purchaser will take all reasonable actions as necessary to prevent other buildings, structures or flora from overshadowing or otherwise blocking access of sunlight to the System.
- 13. Use of System. Purchaser will not use electrical energy generated by the System for the purposes of heating a swimming pool within the meaning of Section 48 of the Internal Revenue Code.

IN WITNESS WHEREOF and in confirmation of their consent to the terms and conditions contained in this Agreement and intending to be legally bound hereby, Provider and Purchaser have executed this Agreement as of the Effective Date.

**SCHEDULES**

**I. Schedule 1 – Description of the Premises, System and Subsidy**

<b><u>A. Premises</u></b>	3970 Rocklin Rd, Rocklin, CA 95677
<b>Site diagram attached:</b>	X Yes <input type="checkbox"/> No
<b><u>B. Description of Solar System</u></b>	Behind the meter, grid interconnected, canopy mounted solar.
<b>Solar System Size:</b>	274.05 (DC) (this is an estimate (and not a guarantee) of the System size; Provider may update the System Size prior to the Commercial Operation Date.)
<b><u>C. Anticipated Subsidy or Rebate</u></b>	\$0

**II. Schedule 2 – Energy Services Payment**

Purchaser shall pay to Provider a monthly payment (the “Energy Services Payment”) for the Energy Services provided by the System during each calendar month of the Term equal to the product of (x) Actual Monthly Production for the System for the relevant month multiplied by (y) the kWh Rate.

The “Actual Monthly Production” means the amount of energy recorded by Provider’s metering equipment during each calendar month of the Term.

The kWh Rate with respect to the System under this Agreement shall be in accordance with the following schedule:

PPA Rate Table

<b>Term Year</b>	<b>kWh Rate (\$/kWh)</b>	<b>Term Year</b>	<b>\$/kWh Rate (\$/kWh)</b>
1	\$0.1675	11	\$0.1675
2	\$0.1675	12	\$0.1675
3	\$0.1675	13	\$0.1675
4	\$0.1675	14	\$0.1675
5	\$0.1675	15	\$0.1675
6	\$0.1675	16	\$0.1675
7	\$0.1675	17	\$0.1675
8	\$0.1675	18	\$0.1675
9	\$0.1675	19	\$0.1675
10	\$0.1675	20	\$0.1675

Distribution Upgrades. Within thirty (30) days of receipt of notice from the Local Electric Utility of distribution upgrade costs required by the Local Electric Utility, Purchaser will provide written notice (email is acceptable) to Provider of Purchaser's election of one of the following options:

- a. Purchaser will bear all the distribution upgrade costs, and the kWh Rates stated in the PPA Rate Table will remain unchanged. Purchaser shall make payments directly to the Local Electric Utility in accordance with the requirements of the Local Electric Utility.
- b. For every \$0.01 per watt DC of such distribution upgrade costs, the kWh rate in the PPA Rate Table will increase \$0.00079 per kWh. Provider shall then be responsible for all associated costs and payments.

Scope Changes (ITC Eligible). If changes in project scope occur that are eligible for the Federal Investment Tax Credit (including but not limited to adverse geotechnical conditions or the inclusion of spare conduit) and the costs directly related such changes go beyond those contemplated as part of the development and implementation of the System in this Agreement, Provider will provide reasonable documentation demonstrating the direct and actual time and materials costs relating to such costs to Purchaser. Within thirty (30) days after Purchaser receives such documentation, Purchaser will provide written notice to Provider of Purchaser's election of one of the following options:

- a. Purchaser will bear all of the reasonably documented scope change costs, and the kWh rate as stated in Table 1 will remain unchanged.
- b. For every \$0.01 per watt DC of such costs, the kWh rate in Table 1 will increase \$0.00050 per kWh. Provider shall then be responsible for all associated costs and payments.

Scope Changes (Non-ITC Eligible). If changes in project scope occur that are not eligible for the Federal Investment Tax Credit (including but not limited to ADA compliance costs not related to System configuration or construction) and the costs directly related such changes go beyond those contemplated as part of the development and implementation of the System in this Agreement, Provider will provide reasonable documentation demonstrating the direct and actual time and materials costs relating to such costs to Purchaser. Within thirty (30) days after Purchaser receives such documentation, Purchaser will provide written notice to Provider of Purchaser's election of one of the following options:

- a. Purchaser will pay the entire amount of such associated costs, and the kWh rate as stated in the PPA Rate Table will remain unchanged.
- b. For every \$0.01 per watt DC of such associated costs, the kWh rate in the PPA Rate Table will increase \$0.00066 per kWh.. Provider shall then be responsible for all associated costs and payments.

The following shall apply to any of the scenarios of Sections 1 through 3, above. The kWh rate shall not exceed the maximum total increase of \$0.0434. If the aggregate of costs set forth above for which Purchaser has elected to pay for via increased kWh Rate exceed the maximum total kWh Rate increase, the Provider has the option to absorb such costs with no increases above the maximum kWh Rate increase or to terminate this Agreement and to remove the System pursuant to Section 2.4 of the General Conditions.

The values in Schedule 3 will be similarly adjusted in association any adjustment to the kWh rate in this Schedule 2.

### III. Schedule 3 – Early Termination Fee

The Early Termination Fee with respect to the System under this Agreement shall be calculated in accordance with the following:

Early Termination Occurs in Year:	Column 1 Early Termination Fee where Purchaser does <b>not</b> take Title to the System (\$/Wdc including costs of removal)	Purchase Date Occurs on the 91 <sup>st</sup> day following: (Each “Anniversary” below shall refer to the anniversary of the Commercial Operation Date)	Column 2 Early Termination Fee where Purchaser takes Title to the System (\$/Wdc, does <b>not</b> include costs of removal)
1*	\$4.66		--
2	\$3.84		--
3	\$3.64		--
4	\$3.43		--
5	\$3.22		--
6	\$3.01		--
7	\$2.98	5 <sup>th</sup> Anniversary	\$2.51
8	\$2.95	6 <sup>th</sup> Anniversary	\$2.48
9	\$2.91	7 <sup>th</sup> Anniversary	\$2.45
10	\$2.88	8 <sup>th</sup> Anniversary	\$2.41
11	\$2.84	9 <sup>th</sup> Anniversary	\$2.38
12	\$2.80	10 <sup>th</sup> Anniversary	\$2.34
13	\$2.76	11 <sup>th</sup> Anniversary	\$2.30
14	\$2.72	12 <sup>th</sup> Anniversary	\$2.26
15	\$2.68	13 <sup>th</sup> Anniversary	\$2.22
16	\$2.63	14 <sup>th</sup> Anniversary	\$2.18
17	\$2.58	15 <sup>th</sup> Anniversary	\$2.13
18	\$2.54	16 <sup>th</sup> Anniversary	\$2.08
19	\$2.48	17 <sup>th</sup> Anniversary	\$2.04
20	\$2.43	18 <sup>th</sup> Anniversary	\$1.98
		19 <sup>th</sup> Anniversary	\$1.93

At Expiration (the end of the Initial Term), the amount in Column 1 shall be deemed to be zero (0).

\*Includes Early Termination prior to the Commercial Operation Date.

### IV. Schedule 4 – Estimated Annual Production

Estimated Annual Production commencing on the Commercial Operation Date with respect to System under this Agreement shall be as follows:

Term Year	Estimated Production (kWh)	Term Year	Estimated Production (kWh)
1	412,993	11	390,838
2	410,928	12	388,884
3	408,874	13	386,940
4	406,829	14	385,005
5	404,795	15	383,080
6	402,771	16	381,164
7	400,757	17	379,259
8	398,754	18	377,362
9	396,760	19	375,475
10	394,776	20	390,838

The values set forth in the table above are estimates (and not guarantees), of approximately how many kWhs are expected to be generated annually by the System assuming the System size indicated in Schedule 1 and based on initial System designs. Provider may deliver to Purchaser an updated table on or about the Commercial Operation Date based on the actual System size and design.

**V. Schedule 5 – Notice Information**

**Purchaser:**

**City of Rocklin  
City Manager’s Office

**Financing Party:**

[To be provided by Provider when known]

**VI. Schedule 6 – Reserved**

**VII. Schedule 7 – Specific Items for Scope of Work**

1. Provider Responsibilities:

- 1.1. All System structures shall be permitted through local Authority Having Jurisdiction “AHJ” as carports or shade structures, as applicable. Provider shall cause to the local AHJ permits to be issued on behalf of the project(s).
- 1.2. Solar arrays will be canopy height of 10” minimum clearance.
- 1.3. Canopy structures shall be painted, not galvanized. Provider shall coordinate with Purchaser on selecting paint color.
- 1.4. Provider shall be responsible for all tree trimming and tree removal in order to facilitate the installation of the Systems. Purchaser shall acknowledge and approve removal of trees identified by Provider, in order to install the system and such approval shall not be unreasonably withheld. Irrigation re-routing shall not be the responsibility of the Provider.
- 1.5. Provider shall be responsible for costs associated with ADA upgrades required including all signage and striping and new path of travel solely and directly as a result of the Systems being installed. If any ADA upgrades are required as a result of the Premises not being code compliant prior to the start of construction regardless of such upgrades being triggered as a

result of the solar installation, Purchaser shall be responsible for the costs of such additional upgrades, provided, Purchaser shall have the option to pay such costs as governed by the terms of Schedule 2 within these Special Conditions. In no event shall Purchaser be required to exceed the maximum increase identified therein.

- 1.6. Provider intends to interconnect the System to Purchaser-owned 480 V service conductors at a mutually agreeable location. Provider assumes that the existing conductors and service equipment are sufficiently capable of accepting the additional electrical load of the System. Provider shall not bear responsibility for any required upgrades to the pre-existing electrical system.
  - 1.7. Provider shall be responsible for all fees associated with the interconnection application, except that Provider shall not be responsible for transmission and distribution upgrades determined necessary by the Local Electric Utility.
  - 1.8. Provider is responsible for completing all subsurface investigation, including but not limited to geotechnical and soils investigation(s) and testing, for the design and installation of the System. Provider assumes pad and pad foundations will be excavated approximately 12" deep, approximately 6" above grade depending on existing topography with no refusal, dewatering, contaminated soils or limitations otherwise. If additional width or depth is needed or if additional drilling or excavation is needed due to hard rock conditions or adverse soil conditions, Provider shall not be responsible for such additional expenses. Such additional expenses shall be governed by the Special Conditions Schedule 2 provisions of any collocated system.
  - 1.9. Provider agrees to construct the System in no more than a single construction phase.
  - 1.10. Provider shall be responsible for all inspection and inspector costs associated with the installation of the system.
2. Purchaser Responsibilities:
- 2.1. Any irrigation re-routing shall be the responsibility of the Purchaser.

## VIII. Schedule 8 –Site Diagram

**IX. Schedule 9 – Acknowledgment of Upgrades, Schedule or Scope Change**

## Upgrades, Scope and/or Schedule Change Acknowledgment

This Acknowledgment is made in accordance with Section 10 of the Special Conditions, as defined in that Energy Service Agreement – [Solar], between the City of Rocklin (“Purchaser”) and FFP BTM Solar, LLC (“Provider”), dated [\_\_\_\_\_, 20\_\_] (the “Agreement”). Upon execution by both Purchaser and Provider, this Acknowledgment shall be effective as of [INSERT DATE] (the “Acknowledgment Effective Date”).

1. Type of Change:

- Distribution Upgrades
- Scope Changes (ITC Eligible)
- Scope Changes (Non-ITC Eligible)
- Day for Day Extension
- Extension for Good Cause

2. Description of Change

[INSERT DESCRIPTION AND IF PROVIDER SEEKING EXTENSION FOR GOOD CAUSE, PROVIDER TO DETAIL CIRCUMSTANCES AND ACTIONS PROVIDER IS TAKING TO COMPLETE SYSTEM ON AGREED UPON SCHEDULE]

3. kWh Rate and Early Termination Fee [IF NO IMPACT TO RATE OR ETF THEN DELETE]

[INSERT UPDATED KWH RATE AND EARLY TERMINATION FEE TABLE]

4. Estimated Annual Production [IF NO IMPACT TO ESTIMATED ANNUAL PRODUCTION THEN DELETE]

[INSERT UPDATED SCHEDULE 4 ESTIMATED ANNUAL PRODUCTION TABLE]

5. Updated Guaranteed Construction Start Date and Guaranteed Commercial Operation Date [IF NO IMPACT TO CLIFF DATES THEN DELETE]

The Parties hereby agree that the Guaranteed Construction Start Date and the Guaranteed Commercial Operation Date as defined in the Agreement are updated as follows:

Guaranteed Construction Start Date: [\_\_\_\_\_]

Guaranteed Commercial Operation Date: [\_\_\_\_\_]

The Parties hereby acknowledge and confirm the terms set forth herein as of the Acknowledgment Effective Date.

City of Rocklin

FFP BTM Solar, LLC

Title: \_\_\_\_\_

**X. Schedule 10 – Electric Vehicle Charging Stations**

Purchaser may, in its sole discretion, provide written notice to Provider within 75 days of the Effective Date, that Purchaser elects to have Provider install, concurrently with the installation of the System and at Provider’s sole expense two electric vehicle charging stations (“EVCS”) under the System canopy. If Purchaser makes such election, the kWh rate in Schedule 2 will increase by \$0.0137/KWH.

Provider shall install electric vehicle charging stations (“EVCS”) in a manner mutually agreeable to both parties. Purchaser shall be responsible for all operation and maintenance thereof, including pursuing any claims against the warranty provided by the manufacturer(s). The cost for purchasing and installing the EVCSs is included in the kWh Rate, and therefore shall be at no additional cost to Purchaser.

W/ EVCS PPA Rate Table

<b>Term Year</b>	<b>kWh Rate (\$/kWh)</b>	<b>Term Year</b>	<b>\$/kWh Rate (\$/kWh)</b>
1	\$0.1812	11	\$0.1812
2	\$0.1812	12	\$0.1812
3	\$0.1812	13	\$0.1812
4	\$0.1812	14	\$0.1812
5	\$0.1812	15	\$0.1812
6	\$0.1812	16	\$0.1812
7	\$0.1812	17	\$0.1812
8	\$0.1812	18	\$0.1812
9	\$0.1812	19	\$0.1812
10	\$0.1812	20	\$0.1812

The EVCSs are not part of the System. However, Sections 2.5 and 8.3 of the General Conditions shall be applicable to the Scope of Work set forth in Section 9.01 below.

9.01 Scope of Work

Design, procurement, installation and commissioning of EVCS to be installed on the premises.

9.02 Specifications

Charger Type:	ChargePoint CT4000 or similar
Quantity	1 Dual Port (2 Heads)
Mounting Type:	Canopy Column Mounted
Access Control:	Optional
Revenue Collection Capability:	Included (Subscription costs not included)
Manufacturer’s Warranty	36 Months

Equipment and specifications may vary depending on the final design of the System.
